

# Geothermal Financing Options

## Connecticut

### Program

Heating Loan Program

### Available To Customers Of

### Offer

10% Down up to \$15,000  
with 0.99% APR

### Financing Amounts and Term

- Financing is available up to \$15,000.
- A minimum down payment of 10% is required. For details visit [ctheatloan.com](http://ctheatloan.com).
- Requires NO credit check - approval is granted to customers who have paid their electric bills on time for at least 6 months, or no more than 2 late payments in the last 12 months
- 0.99% interest rate.
- No fees to you or your contractor; no pre-payment penalty.
- Unsecured, fixed-rate financing.
- Payments are made along with your monthly electric bill payments. If the property is sold, the balance may be repaid or may be transferred to the new owner.

For more information, visit [EnergizeCT](http://EnergizeCT)

### Rebate Incentives

Fuel Type	Heat Pump Incentive (\$ per 12,000 BTU/h cooling)
Propane and Oil	\$1,500
Natural Gas and Electric	\$750

With EnergizeCT incentives, both Eversource and UI customers who install a typical 4 ton system (48,000 BTU) in a 2500 sq ft home get a \$6000 rebate for a new Dandelion Geothermal system. Projects are capped at total incentives of \$15,000.

*Note: Demolition/Rebuild and New Construction projects are not eligible for the above rebates. There are rebates available to new construction projects and the customer should pursue them through their general contractor. Dandelion can provide any necessary paperwork to the contractor upon request.*
